#### Garments Supplied by Customer

Due to the nature and process of apparel printing, misprints occur during production. When you purchase shirts and prints through Society Ink, we order extra garments to assure our customers receive all of their quality prints upon delivery (up to 25 pieces). We no longer refund or reprint misprints on orders where garments are not supplied by Society Ink. We recommend when placing an order that our customers include an extra garment per size. If a misprint occurs we print on the shirts provided at no extra print cost to you. All extra shirts supplied are returned to our customers upon completion. If no errors occur we send the garments back blank.
